

ABSTRACT

5 A powder comprising silica-coated zinc oxide fine
particles in which the surface of each particle is coated
with silica, wherein large particles of 5 μm or more
account for 0.1 mass% or less. A powder comprising
surface-hydrophobicized silica-coated zinc oxide fine
particles in which the silica-coated zinc oxide fine
particles whose surfaces have been coated with silica are
10 further treated with a hydrophobicity-imparting agent,
wherein large particles of 5 μm or more account for 0.1
mass% or less.
